2007/29 C

April 5, 2007

The Honorable Lib Fleming
Public Service Commission of SC
101 Executive Center Drive, Suite 100
Columbia, SC 29210

Dear Honorable Fleming:

We are writing this letter to you since you are our representative on the South Carolina Public Services Commission.

Inman, Campobello, and Landrum, three towns located in the Spartanburg County School District 1, are very much concerned about local telephone service among the towns. The company providing service to the area, for years (Alltel) has sold to Windstream. The three towns have continually talked about getting the Public Services Commission to review the local telephone situation. There have been changes in community ties and with the new ownership taking over; we feel that the review of the local service is necessary at this time.

Telephone calls to and from Inman to Campobello (3 miles) and Landrum (5 miles) are long distance. A call to and from Spartanburg to Inman is a local call. It is long distance from Campobello and Landrum to and from Spartanburg. In fact, the School District and other businesses that call from Landrum to Inman or vice versa must have two phone lines in order not to pay for long distance service.

Ms. Fleming, the City of Inman cordially requests that you have the PSC to review our request to make the whole area local calling to and from all three towns.

Thank you for your consideration.

Sincerely,

Wright J. Gaines
Mayor

cc: The Honorable G. O'Neal Hamilton, Chair, PSC
